

Abstract Template for the SolMech 2026 Conference

First A. Author^{1,*}, Second B. Author² and Third C. Author²

¹Institute of Fundamental Technological Research, Polish Academy of Sciences, Warsaw, Poland
e-mail: solmech2026@ippt.pan.pl

²Faculty of Civil Engineering, Cracow University of Technology, Kraków, Poland
e-mails: wil@pk.edu.pl, L-10@pk.edu.pl

KEYWORDS: *Instructions, SolMech Conference, Solid Mechanics, Numerical Methods.*

Registered participants are invited to submit a **one-page** abstract presenting a concise yet comprehensive outline of their research, with optional references [1, 2].

The Abstract should be in English. Please use the standard A4 (210 × 297 mm) paper size. Allow 20 mm left, right and bottom margins, and set the top margin to 30 mm (use the typing area of 170 × 247 mm). The text should be justified and written in 11pt Times Roman font with line spacing 1.15. It must contain the full name(s) and affiliation(s) of the author(s). The presenting author should be indicated with an asterisk.

The Abstract must be converted to the **Portable Document Format (PDF)** before submission. The file name should follow the pattern: **LastName-FirstName-SolMech2026.pdf**

Optionally, figures, tables or equations can be included. Tables or figures and their captions should be centred and numbered, leaving 12 points above and below the table or figure (see Fig. 1).

Figure 1. Left and right figures with a short, centred caption.

Equations should be centred, with sufficient space (at least 6 pt) above and below, and should be consecutively numbered, with numbers in parentheses aligned to the right margin

$$y = x^2 + \frac{\ln x}{x}. \quad (1)$$

References should be placed at the end of the abstract and referenced in the paper through a number in square brackets, e.g. [1]. The formats of sample journal and book references are given below. Please add a DOI link or a web URL (if applicable). In the case of a long reference, its title may be omitted.

ACKNOWLEDGEMENT: If applicable, please mention the source of research funding or collaboration.
